MUSIC-THE DRAMA.

OPERA, DRAMATIC AND LYRIC. "Tannhäuser" not being ready for performance at the opera last night, what is called in theatrical parlance "a double bill" was given instead. It consted of "I Pagliacci," with Mme. Arnoldson as Nedda, and the second and third acts of "Lucia di Lammermoor," with Madame Melba as the illstarred heroine. It is reasonable to suppose, under the circumstances, that Leoncavalle's hot-blooded musical drama was given in the hope of attracting a more numerous audience than was likely to come to hear the tuneful work of Donizetti. If so, the sophistication can scarcely be set down as a success. Madame Melba has abandoned "Pagliacci," and its fate would seem to be scaled. At least Madame Arnoldson, comely, arch and graceful as she is, cannot save it, for she has neither the volume nor the vitality of voice which the opera exacts. The representation was inadequate in everything except the singing of Signori de Lucla and Ancona, which was enjoyed to the forgetting of all the dramatic proprieties.

The acts of "Lucia," being within the horizon of the company's sympathies and intelligence, and having the marvellous voice and saill of Melba to inspire them, went much better. the circumstances, that Leoncavallo's hot-blooded

pire them, went much better.

THE SYMPHONY SOCIETY.

The fourth afternoon concert of the Symphony character. Two of its numbers promised well on the programme, the first, Schubert's Symphony in C. and the last, Dr. Damrosch's dignified and noble Festival Overture, and there, if one is willing to forgive the perfunctory manner in which the orforgive the perfunctory manner in which the orchestra generally plays, compassed all that was
worthy of the society and the occasion. The middle
rumbers were the airs, "Le Printemps" and "Mon
Cocur," from "Samson and Delilah," by SaintSaens, and the first movement of Reinecke's concerto for violoncello, built on a German folk-song
melody. The singer was Miss Sigrid Wolf, a contrallo, concerning whom amiable expectations had
been aroused by a landatory letter from the composer Grieg, all of which were most grievously
disappointed, for she sang with a voice of unpleasant quality, per sistently out of tune. Having
set the unhappy fashion in respect of bad intonation, she was followed in it by Mr. Henner, the
violoncello player, who, for the first time, disappointed those who have been trying to admire him.

"LES SURPRISES DU DIVORCE."

The authors of the familiar play which was preented at Abbey's Theatre last night style it a comedy. As a matter of fact, "Les Surprises du porce" is a farce of the wildest description. In it human nature is not satirized-it is burlesqued. The ubiquitous mother-in-law who spreads consternation through the play is a caricature in the manner of the comic weeklies. Regarded as an acting play, the uproarious production of MM. Bisson and Mars is a most ingenious piece of workmanship. Regarded as dramatic literature, it is manship. Regarded as dramatic interactic, it is arrant trash. M. Coquelle took up this trash last night and carried it to the level of art. Mme. Hading did not appear, and the bulk of the responsibility for the performance fell upon his shoulders. He bore it with his usual ease, and with an elasticity, with an exhibaration that was less to be expected. Nothing he has done this season has equalled his Henri Duval in abounding humor, and nothing has surpassed it in spontaneity. It is, naturally, a far less interesting part than that of Tartuffe; it has not any of the exquisiteness of Mascarille, and it calls for less subtlety than either of these characters. It belongs to the lowest range of low comedy, and is, on the whole, unimportant in M. Coquelin's repertoire. But in his hands it becomes so screamingly funny, and is, withal, played with such marvellous clearness and strength of execution, that he won last night some of the heartfest applause which has rewarded his efforts since his initial appearance this winter.

The comicality of Henri Duval's, experiences in "Les Surprises du Diverce" is in a rising scale, which culminates at the end of the second act. The third act is still full of ambuscades and moments of frenzied puzzlement for the unhappy husband, but the great climax occurs just before the second curtain goes down. M. Coquelin led up to this climax with remarkable finesse. As scene after scene was passed, with each one placing him in a more harrowing situation than the last, it seemed as though the surprise, despair and ludicrous race of Duval had reached the final stage of expression, but each time M. Coquelin rose one degree higher in the scale, and his crescendo was as fresh as though his adventures had only just bearn. The theatre was kept in a continuous state of merriment that at times became overwhelming. The performance was an eloquent illustration of the thoroughness with which M. Coquelin masters a rôle, the pains which he spends upon its every detail. Henri Duval is a character that appeals to none of the higher ambitions of an artist, but M. Coquelin, in undertaking it, plays it with a devotion equal to that which he gives to far more worthy material. It is, perhaps, regrettable that he should give it any attention at all. An actor of his ability might be better employed. But since he has elected to do the work, it is to be freely admitted that he does it surpassingly well. The company which supports him was in excellent form last night, and all the characters were made amusing. Mme, Patry was a truly rideulous, which is to say a truly satisfactory, Mme Bonnivard, and M. Deroy, as Bourganeuf, acted that silly gentleman to the life. The third act is still full of ambuscades and monts of frenzied puzzlement for the unhappy hus-

The chantry of Grace Church on Wednesday morning was the scene of a marriage which is of more than usual interest by reason of the disparity in the ages of the contracting parties. Mrs. Louise Carol Colyer, the wealthy widow of State Senator Vincent Colyer, was married to Edward Frankiin Weed, who has had the management of her estate. According to the register the bride was fifty years old, the young husband twenty-four. was fifty years old, the young husband twenty-four. The ceremony was performed by the Rev. Louis French, of Noroton, Conn., while the Rev. H. W. Wells, one of the Grace Church clergy, assisted him. About a dozen witnesses, mostly relatives of the bride and bridegroom, were present. Immediately after the marriage the couple left New-York for the honeymoon. Contentment Island, Darlen, near Stamford, the estate on which Mrs. Colver lives, is one of the show places in that part of Connecticut.

The present season of Edward Harrisan's company at a theatra will close on March 3. He will then take his company to Boston, and after a short tour in the East will cross the continent and play on the circuit contra Francisco it is likely that Mr. Harrican will go to Australia. Mr. Hanley said in-t night that this was not quite settled, but it seems altogether likely. If he goes to Australia he will return by the way of England, and will play in Louden and also in Liverpool and other

previncial towns.

The journey to Australia, if it occurs at all, will be sarly in the actumn, and it will be six or eight months from that time before Mr. Harriyan can get back to New-The home theatre will in that case be run season as a combination house. Mr. Harrigan will take all the principals of his present company on his tour, and he is now at work on a new play, which will probably be decidedly interesting to note how a London audience takes Mr. Harrican's plays, which are so perfect in their New-York local color, and appeal so much to those who are familiar with the scenes with which they deal.

The performance of Tannhauser, announced for this afternoon at the Metropolitan Opera House, has been again protooned in consequence of the cickness of M. Mauglere and Mile, Bauerneister. THE INCOME TAX IN THE TARIFF BILL.

IT SHOULD INSURE DEFEAT.

From The New-York Pfess.

The decision of the House Democratic caucus yesterday to add the income tax to the Democratic free-trade measure is a triumph for sectional hatred and bigotry. It makes the Wilson bill doubly odious, and it should insure its defeat beyond all doubly. From The New-York Press.

A PIT FOR THE DEMOCRATS. From The Philadelphia Record (Dem.).

Republican Congressmen rightly judge that if the Democrats shall refuse to so arrange the tariff schedules as to provide necessary revenue from duties on imports, and shall resort to an income tax to make up the deficiency, they will dig a pit for themselves in which the indignant voters of the country will take the first opportunity to bury them. From The Philadelphia Record (Dem.).

MEN WHO FIGHT IT WILL BE UPHELD.

From The Brooklyn Eagle (Dem.).

The members of Congress from Brooklyn will be sustained by everybody in this town who knows how to think, by every interest in the town that has anything at stake, not only in voting against an income tax as a separate proposition, but in defeating the Wilson bill itself if it embody the income tax principle. Beform of the tariff is urgent, to be sure, but the Democracy cannot afford to go shead at such a cost.

IT MEANS WRECK FOR THE TARIFF BILL. From The Philadelphia Times.

From The Philadespha Times.

The fighting factions in Congress are bent on wrecking tariff reform. The decision of the Democratic caucus to attach the Internal Revenue bill to the Tariff bill is wrong in every way, in principle and in policy. The tariff should be passed first and the other measure considered afterward. To insist on loading the tariff with an income tax is to invite its defeat.

IT KILLS THE WILSON BILL. From The New-York Advertiser.

From The New-York Advertiser.

Professor Wilson may not know it, but the Wilson bill is dead. The action of the Democratic caucus of yesterday in resolving to saddle upon it the Internal Revenue measure has crushed it out of existence. The outlook for the Wilson bill, which has been dark and gloomy, is now positively black with doubt. Congress is just beginning to feel the indignant pulse of the people, every heat of which is a protest against the removal of protective duties. Besides, the income tax proposition has been received with indignation on all sides, and opposed to both these schemes is a rapidly solidifying group in Congress who propose to fight both measures to the end.

WESTINGHOUSE ELECTRIC.

A year ago last spring a representative of the Boston News Bureau visited the Westinghouse electric works at Pittsburg and found 1,200 hands at work and a total force, including the New-York factory, of about 1,800 persons, and Mr. Westinghouse said that he expected soon to show a gross business of \$6,000,000, per annum, and at a fair ranufacturing profit, that he did not see any reason for a consolidation of electric companies and did not believe in expensive patent litigation, but believel it "better policy to manufacture the best weres and get a fair price for them," that if he got the contract for lighting the World's Fair he would do it, whatever the patent issue might be,

eral electric situation in New-York, and finds that the company is doing a business of fully \$0,000,000 per annum, and is employing altogether more than 2,000 hands, is getting a fair manufacturing profit and has outgrown its Pittsburg works and con-tracted for a new plant with all modern improveents, so located that a great caving can be mad by the handling of all departments under a single

that might have lain dormant. The Westinghouse with the Edison Incandescent lamp had not a patent decision forced it to resort to the old Saw-

PRESIDENT ANDREWS THEIR GUEST.

HE TELLS WHY HE REFUSED TO GO TO CHICAGO UNIVERSITY-AN ENTHUSIASTIC GATHERING.

"I enjoyed that alumn! dinner more than any other that I ever attended," said President E. Benjamin Andrews, of Brown University, last evening, as he went out of Leon's restaurant, Church and Cortlandt sts., where the Association of the Young Alumni of Brown University of New-York and its vicinity had been holding its first annual dinner. Similar sentiments were expressed by nearly all the sixty or sixty-five members present. Jolly good fellowship and a spirit of loyalty to alma mater pervaded the assemblage, college songs were sung with right goodwill and the speeches were delightfully short, pleasant and to the point.

The association was formed last fall for the purpose of holding frequent informal gatherings and

doing some special work in promoting the wel-fare of Brown University. It is an auxiliary of the general alumni organization of this city. In the character of its meetings, however, it has departed from the severe dignity of the general as-sociation's annual dinners, and while preserving proper decorum, seeks to let fun and enthusiasm

The room in which the dinner was held was comhave full play. pletely surrounded by mirrors, and there were mirrors on the ceiling. Look in whatever direction one might, there were his friends dining and laughing, some upside down overhead, others apparently blocks away, up or down town. There seemed to be several acres of people, all met to do honor to

their alma mater. Samuel H. Ordway, president of the association, was in the chair. On his right hand sat President Andrews, on his left was W. W. Bustard, an undergraduate, who had come to speak of Brown's athletic interests. In his speech of welcome, intro-ducing the guest of the evening, Mr. Ordway re-ferred to the fact that President Andrews had just declined a tempting offer to become the co-president of Chicago University at an attractive salary, in order to remain at Brown and continue the work of building up the college. "Such is the loyalty of this son of Brown," said Mr. Ordway, "that the offer has been refused. To what heights may not the university attain if other alumni show equal devotion!" President Andrews was received with long-continued cheers. He said he could not deny th offer made to him was a tempting one, but he had declined it because he believed that the alumni and friends of Brown would support the programme of advancement he had mapped out. One of the principal causes, he said, which had led him to

of advancement he had mapped out. One of the principal causes, he said, which had led him to that conclusion was the formation of the young alumni association in this city.

"When I first became president of the college," said Dr. Andrews, "I believed that there was no better place than that to build up a place of learning second to none in this country. I felt this strongly in spite of the fact that I did not think that others felt as I did. My temptation to resign came because I felt that I would not be able to communicate my inspiration to others. The formation of this association, showing a new spirit among the alumninas helped to restore my bellef that the work which I have set about can be accomplished. I intend to remain at Brown and throw my whole energies into her advancement."

The Rev. Edward Judson, of the Judson Memorial Church, congratulated every one connected with the college that Dr. Andrews was to remain as its president. Mr. Bustard made an excellent speech, in which he told of encouraging prospects in athletics. The other speakers were W. H. Frost and Colgate Hoyt.

Resolutions were presented to President Andrews expressing appreciation of his action and pledging him co-operation in his efforts to advance the interests of the college. The resolutions were read by Gardner Colby. Among the signers were Charles L. Colby, the Rev. Edward Judson, Lysander Dickermann, Samuel H. Ordway, Francis Lawton, Arthur F. Bowers, James W. Perry, Joseph P. Earle, H. B. Anthony, George W. Carr, W. H. Williams, J. R. Bishoo, Clarkson A. Collins, Elisha Dyer, jr., Bentamin Barker, jr., John R. Beam, Dr. George H. Rotturn, Dr. Charles Hitchcock, William R. Dorman, Frank T. Easton, Ira Barrows, Arthur H. Colby, L. St. Clair Colby, Gardner Colby, William Henry Frost, Norman S. Dike, C. H. Payne, E. G. Thurston, W. E. Caldwell, Colgate Hoyt, Arthur Lincoln, J. P. Williams, J. E. Buillin, G. H. Ferris, and Charles H. Payne.

The meeting closed with the singing of "Alma Mater," the college hymn.

ARRESTED FOR COUNTERFEITING.

TWO MEN FOUND BY SECRET SERVICE OFFICERS WITH PRESSES FOR COINING BOGUS MONEY.

Alois Fentman, of No. 157 Eighteenth-st., and August Nederland, of No. 122 Teath-st., Brooklyn, were arrested yesterday afternoon in the former's apartments by officers of the United States Secre ervice, for counterfeiting The men were caught it the act of making 10 and 25 cent pieces. A conplete set of dies and a quantity of copper ar I silver were found in the room.

pert engraver, and it is believed that he at one pert engraver, and it is believed that he at one time was connected with the United States Mint. Fentman elept in the apartment where the plant was. These men rented a little one-story bouse four months ago, for which they paid \$5 a month. It is believed that large sums of bogus coin a glories in the ceilar. The arrest was made by Sergeant Evans and Patrolman Calliban, and by O. 6 cers furnet and Esquaroo, of the Secret Service. Immense quantities of their bogus coin are stopposed to be in circulation. Four presses, with disk were found on the premises, having a capacity of turning out about \$500 in bogus coin a day.

Askle from Fentman and Nederland, no one was seen to enter the building No. 15; Eighteenth-st in the last four months except a woman, who has not been found as yet. The counterfeiters evidently were preparing to manufacture gold coin, for a quantity of gold in built was found in the place.

The counterfeiting was gone in an extremely clever way, the men putting in enough goo. I stal to give it a value of about 50 per cent of it real value, leaving them a profit of only 40 pr cent. The men apparently were intending to more from their prevent place in a few days.

On January 6 Mary Relundt, of No. 414 Figuriars, was arrested for passing bogus 25-cent recei, and it is said that she procured them from lederland and Fentman's place. The counterfeit evere brought before Commissioner Morle, and vill be tried January 31. Nederland is twenty-ix years old.
